

Model B<sup>2</sup>

# Side-by-Side **SNUBNOSE** Concrete Reclaimer

**BFK.**  
Focused.

Recommended for use at: Large Size Ready-Mix Plants

Operating in the range of: 20 to 50 Mixer Trucks or more!

Maximum Thru-put: 120 yds<sup>3</sup>-per-hour

No. of Trucks discharging at once: 4

Since 1997, BFK has FOCUSED on one thing:

## **CONCRETE RECLAIMERS**

**BFK offers more sizes of Reclaimer than any other manufacturer, engineered to fit *your* requirements, not ours!**

Need to wash-out a lot of trucks at once?

The Model B-Squared *Side-by-Side* SNUBNOSE Reclaimer System offers the ability to reclaim up to **2 yards-per-minute**, from **4 trucks at once**, with the added benefit of **Redundancy!**

Competitive brands offer discharge "buffers" to feed their reclaimers, which only deliver about 1/3 yard-per-minute! That's right, it takes 3 minutes to reclaim 1 yard—up to **6 times slower** than the BFK!

In addition, if *either* the buffer or the reclaimer goes down, **you're done reclaiming until you get it fixed!**

Not with a B-Squared system. If one Reclaimer becomes in-operable, you still have reclamation capabilities! **Built-in Redundancy!**

**ONLY BFK Reclaimers offer**  
**NO Greaseable Bearings,**  
**NO Leaky Shaft Seals,**  
and **absolutely**  
**NO Shaker Screens**  
to separate rock and sand,  
making them the  
most user-friendly  
and affordable  
Reclaimers available!
