

Model B²

Side-by-Side **SNUBNOSE** Concrete Reclaimer

BFK.
Focused.

Recommended for use at: **Large Size Ready-Mix Plants**

Operating in the range of: **20 to 50 Mixer Trucks or more!**

Maximum Thru-put: **120 yds³-per-hour**

No. of Trucks discharging at once: **4**

Since 1997, BFK has FOCUSED on one thing:

CONCRETE RECLAIMERS

BFK offers more sizes of Reclaimer than any other manufacturer, engineered to fit *your* requirements, not ours!

Need to wash-out a lot of trucks at once?

The Model B-Squared *Side-by-Side* SNUBNOSE Reclaimer System offers the ability to reclaim up to **2 yards-per-minute**, from **4 trucks at once**, with the added benefit of **Redundancy!**

Competitive brands offer discharge "buffers" to feed their reclaimers, which only deliver about 1/3 yard-per-minute! That's right, it takes 3 minutes to reclaim 1 yard—up to **6 times slower** than the BFK!

In addition, if *either* the buffer or the reclaimer goes down, **you're done reclaiming until you get it fixed!**

Not with a B-Squared system. If one Reclaimer becomes in-operable, you still have reclamation capabilities! **Built-in Redundancy!**

ONLY BFK Reclaimers offer
NO Greaseable Bearings,
NO Leaky Shaft Seals,
and **absolutely**
NO Shaker Screens
to separate rock and sand,
making them the
most user-friendly
and affordable
Reclaimers available!
